

Product Update

Spring 2022

» The Challenges

With everything that has been going on at home and around the world, the last year has absolutely flown by. Faced with the challenges of uncertainty and the inevitable volatility created by the coronavirus restrictions, the team here at Fahr have bounced back with vigour and enthusiasm.

Since the launch of our 44-page Product Catalogue last summer, we have developed a raft of new products which we really hope you will like.

This 16-page Spring 2022 Product Update is packed full of some novel new concepts together with some cost-saving solutions to ease the pressure on ever tightening budgets and increasing material costs.

At Fahr, we are 100% committed to sustainability. It has always been our policy, but we would like to remind you that we are happy to take back any disused Fahr HDPE panels. We will ensure they are processed and recycled, which could be used to create new sheets or products that will benefit future generations.
